

Ankita Parasher

B.Tech CSE candidate proficient in Python, Java, and SQL, focused on applying technical foundations to real-world challenges. Successfully developed and deployed three key projects, including an AI-driven application and a web platform. Utilized DSA and OOP principles to build maintainable codebases and improve system efficiency. Experience collaborating and leading small teams during academic and hackathon initiatives.

EDUCATION

U.I.E.T Kurukshetra
B.Tech in Computer Science and Engineering (7.76 CGPA)
Aggarwal Public School
Higher Secondary (88 percent)
Aggarwal Public School
Matriculation (86 percent)

Kurukshetra, Haryana
Nov 2022 – July 2026
Faridabad, Haryana
April 2021 – March 2022
Faridabad, Haryana
April 2019 – March 2020

PROFESSIONAL SKILLS

Programming: Python, SQL, C/C++, Java
Web & Cloud: MySQL, Firebase, Docker, Git
Tools: MS office-Excel, Tableau, Power BI, Jupyter Notebooks, Google Colab, Visual Studio Code, Vapi (AI), Keras , Scikit-learn, Kaggle
Concepts: Data Structures & Algorithms (**DSA**), OOPs, Computer Networks, Probability & Statistics
Soft Skills: Leadership, Multi-Tasking, Team Work and Team Management, Problem-solving, Adaptability

TRAINING

C & C++ Development (*Softsynth Software Solution Private Limited, Offline*) *July 2023 – August 2023*
• Built a C++ Snake Game; implemented a real-time loop, non-blocking I/O, dynamic array-based growth, and comprehensive collision detection logic.
Java Development (with DSA) (*Coding Blocks, Offline*) *June 2024 – January 2025*
• Developed a classic Chess application using Java and Swing; employed OOP for piece modeling, implemented complex logic for legal move validation, and designed state management for checkmate detection.
Data Science & Machine Learning (*Udemy, Online*) *June 2025 – Present*
• Leveraged Python, NumPy, and Pandas for data manipulation and feature engineering; developed dataframes, created visualizations (Matplotlib), and deployed analytical apps using Flask and Streamlit.

PROJECTS

Generative AI Exchange Program *AI Application Development & Prompt Engineering*
• **Developed and deployed** AI applications using **Vertex AI**, the **Gemini API**, and **Streamlit**.
• **Engineered prompts** for Gemini and Imagen models, and built a **Multimodal RAG** system to analyze rich documents.
PrepWise *AI-driven Interview Preparation Platform*
• **Built a responsive web app** for topic-wise interview preparation, enabling users to practice with **AI-driven** mock interviews.
• **Integrated Vapi** for conversational AI, **Firebase** for authentication and database, and used **React.js** with **Next.js** for a seamless user experience.

CERTIFICATION

Frontend Development Virtual Internship
IBM | July 2025 – August 2025
Generative AI Exchange Program
Google Cloud Skills Boost | May 2025 – July 2025
• **learning Skills:** Prompt Design, Vertex AI, Gemini and Imagen APIs, Streamlit, Generative AI

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENTS

- Participated and win 1st place in intra college coding competition.
- Participated in coding competition (coding ninjas).
- Participated in NSS (National Service Scheme).
